Instructions

These Character Maps show how the HT Audio Typeface symbols are mapped on your keyboard. The left character in each column shows the keyboard character you type to get the HT Font symbol on the right. A few exceptions are explained below.

How to Use the HT Audio Typeface Set

- 1 Begin by selecting a symbol from one of the HT Font Character Maps and note the keyboard character to the left of it.
- 2 Next, select the desired HT Font from the Font menu of your word processor or page layout program. For example, if you selected a symbol from the HT Speakers Font, then select "HT Speakers" from the Font menu.
- 3 Finally, if a single keyboard character is listed to the left of the HT Font symbol in the Character Map, then select that keyboard character to get the symbol. If the keyboard symbol is a three-digit code, then press and hold the **[Alt]** key and type "0" (zero) followed by the code using the numeric keypad of your keyboard. For example, to get the  symbol from the HT Schematic Font, press **[Alt]+0176**. Important: "0176" must be typed with the numeric keypad.

Copyright and License

The HT Audio Typeface License Agreement allows you to use the fonts on up to five computers as long as they are owned or leased by the licensee (see the agreement for full details). However, the typeface is copyrighted and cannot be duplicated in any fashion beyond the scope of this agreement. Do not give a copy or any portion to another person or entity. Please do not allow unauthorized duplication. Thanks.
